# Adhesives that go the distance.

We create dynamic adhesive solutions that enrich all aspects of life, from the ordinary to the extraordinary.

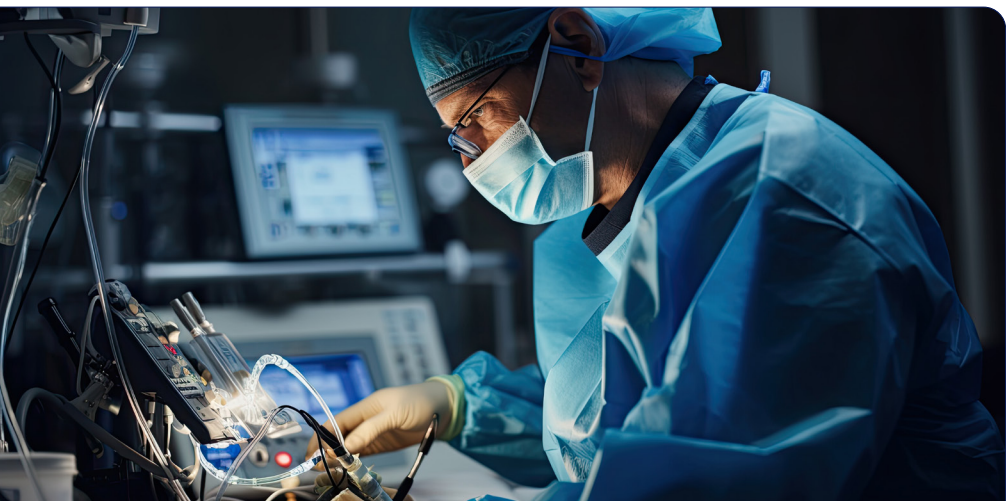

Meridian stands as a global adhesive force, transcending borders with an unwavering commitment to excellence. As an industry leader, we seamlessly bind innovation with reliability, fostering a dynamic presence across diverse markets worldwide. Our global reach is not just about adhesives; it's about creating lasting bonds, propelling industries forward, and adhering to the highest standards of quality on a global scale.

At the core of Meridian lies a mission to accurately estimate and supply adhesive solutions to the electronics, infrastructure, product assembly and building & construction markets.

Our values reflect our drive to be a pillar of adhesive innovation globally:

- Safety and Sustainability
- Respect
- Integrity
- Accountability
- Teamwork

We don't merely adhere; we innovate—pushing the boundaries of technology to deliver exceptional solutions that help everything stick together seamlessly.

## Meridian is comprised of five dynamic divisions, each playing a pivotal role in delivering innovative adhesive solutions across diverse industries.

From Electronics to Infrastructure, Product Assembly, and Building & Construction, our divisions synergize to create a comprehensive adhesive ecosystem. Guided by our mission and values, we empower industries to achieve optimal performance and seamless connectivity.

At the forefront of technological evolution, our Electronics Division responds to the high-growth demands of electric vehicles, fiber optics, semiconductors, and medical devices. Specializing in superior thermal management and electrical conductivity, we enable advancements in device capability, ensuring our adhesive solutions meet the ever-evolving needs of the electronics market.

As stewards of modern infrastructure, our Infrastructure Division contributes to the rehabilitation of aging structures in the U.S. Aligned with the federally backed bipartisan infrastructure bill, we invest in renewable energy, roads, bridges, and dams. Our advanced chemical solutions play a crucial role in extending the life of critical structures, meeting the demands of a changing world.

The Product Assembly Division stands as a cornerstone in high-performance adhesives, composites, and sealants for product assembly applications. With next-generation technology solutions adaptable to various conditions, we provide custom packaging delivery systems. Our collaborative technical support ensures we meet the stringent requirements of a diversified customer base, making us a trusted partner in product assembly.

With decades of technical expertise, Meridian's Packaging Division is known for its experience in the production of water-based, hot melt, and pressure-sensitive adhesives that can perform under extreme operating conditions. Through its unparalleled commitment to delivering custom solutions to a long-standing customer base, the Division has established itself as the ideal adhesives partner in multiple markets beyond traditional packaging, including general product and food packaging, paper converting, construction and millwork.

Meridian's Flooring Division engineers adhesives, coatings and product assembly solutions for a rapidly changing flooring industry. With environmentally responsible products, the Division supports its OEM and distribution partners by saving them time, reducing their liability, and minimizing installation failures. The Division provides industry leading products designed for ease of use with exceptional performance in commercial and residential applications.

### Innovation and Technology

## Meridian stands as a trailblazer in adhesive technology and innovation.

Our commitment to staying on the cutting edge is exemplified through recent technological advancements and robust Research and Development (R&D) initiatives. Continuously pushing the boundaries, we invest in state-of-the-art solutions that redefine industry standards. Whether it's enhancing product performance, developing novel formulations, or embracing emerging technologies, Meridian is dedicated to driving innovation that propels both our company and our partners to new heights.

### Sustainability Initiatives

## Sustainability is not just a buzzword; it's a fundamental commitment ingrained in our operations.

We take pride in our comprehensive efforts toward environmental responsibility. Our sustainability initiatives include specific programs aimed at reducing our carbon footprint, minimizing waste, and conserving resources. We hold certifications that underscore our dedication to eco-friendly practices. From utilizing recycled materials in our products to implementing energy-efficient processes, we strive to be stewards of the environment. Explore our eco-friendly product lines designed to meet the demands of a world increasingly focused on sustainable solutions. Meridian is not just embracing the future; we're shaping it with a sustainable mindset.
